EFTPOS Terminal screens

Pairing the POS to the EFTPOS Terminal - (6 of 6)

Steps	Example Screens
18. On the EFTPOS Terminal: ○ Select START ○ Ensure the code displayed matches what is displayed on POS and select YES ○ Select FINISH	 The five screenshots show the following steps: Get ready to pair with POS: Displays required info: Serial number 333-489-122, Network Testing Network, IP address 10.09.09.101. A green START button is at the bottom. Start POS pairing: Instructs to use the info below to pair the device. Displays the same serial number, network, and IP address. A green clock icon is at the top. Acknowledging pair request: A green clock icon is at the top. Confirm now on your POS: Shows a pairing code 3 C D A 1 B in colored boxes. Text below says: 'If the pairing code displayed on the POS is the same as the one above, please confirm on your POS system.' Pairing successful: Shows a green checkmark. Text says: 'Setup is done. This device is now paired with POS: POS1'. A green FINISH button is at the bottom.

EFTPOS Terminal screens

Perform a Test Purchase Transaction - (1 of 2)

Steps

To perform a test [Purchase Transaction](#) to ensure that the integrated solution is working:

1. Select item and select [Pay](#)
2. Select [Credit Card](#)

Example Screens

Perform a Test Purchase Transaction - (2 of 2)

Steps	Example Screens
3. Complete payment on EFTPOS terminal	 The image displays two example screens from an EFTPOS terminal. The left screen shows the payment interface with logos for eftpos, Mastercard, UnionPay, and VISA. It includes a contactless payment icon (a hand holding a card over a terminal) and a yellow icon with a crossed-out card, indicating that cash payments are not accepted. Below these icons is an illustration of the EFTPOS terminal. At the bottom, it displays the total amount of \$2.99 and a 'Cancel' button. The right screen shows a green checkmark inside a circle, followed by the word 'Approved' in green text, indicating that the payment has been successfully processed.

Perform a Test Refund Transaction - (1 of 2)

Steps	Example Screens
To Refund the test purchase transaction: 1. Select item and enter in the refund amount 2. Select Pay 3. Select Credit Card	 The top screenshot shows a mobile app interface for a refund transaction. At the top, a red bar displays 'Red Chili 100g' and '-\$2.99'. Below this, a black bar shows 'Discount 0.00%' and 'Sale Note'. A blue bar at the bottom contains a red 'PAY' button, a refund amount of '-1.000' with a hand icon pointing to it, and a total of '-\$2.99'. The bottom screenshot shows the 'Payment Details' screen. It features a large black bar with a white '\$' symbol and '-2.99'. Below this, a red bar highlights the 'Credit Card' option, with a 'Cash' option visible to its right. At the bottom, a black bar displays 'Payments' and 'No Payments'.

Perform a Test Refund Transaction - (2 of 2)

Steps	Example Screens
4. Complete payment on EFTPOS terminal	 The example screens show the EFTPOS terminal interface. The left screen displays the 'Insert · Swipe · Tap' header, payment logos (eftpos, Mastercard, UnionPay, VISA), a contactless payment icon, a yellow eye icon, a card reader illustration, and a 'Refund \$2.99' message with a 'Cancel' button. The right screen displays a green checkmark icon and the word 'Approved'.
